

Creating data sets

Lab 4
2/7/18

Creating a data set with `read.csv()`

```
HP_names <- read.csv(text=  
"name,age  
Harry,11  
Ron,12  
Hermione,13", stringsAsFactors = FALSE)
```

Creating a data set with `read.table()`

```
HP_names <- read.table(text=  
  "name age  
  Harry 11  
  Ron 12  
  Hermione 13", head=T)
```
