Creating small datasets

Creating a dataset with `read.csv()`

```r
HP_names <- read.csv(
  text = "name,age
Harry,11
Ron,12
Hermione,13", stringsAsFactors = FALSE
)
```

Creating a dataset with `read.table()`

```r
HP_names <- read.table(
  text = "name age
Harry 11
Ron 12
Hermione 13", head = TRUE
)
```
